Getting Involved!

Strengthening Civic Engagement among Young People.

- > carrying out projects together
- > training in an international context
- > receiving funding for one year

Providing Armenian, Azerbaijani
and Georgian youth between
the ages of 18 and 25 the opportunity
to break down boundaries

> Investment in the future of the South Caucasus

Getting Involved! works at the level of the individual, where changes start. Participants learn how to shape their immediate surroundings by combining good ideas with the right tools. What works in small projects can be expanded to a larger scale.

> Training

Participants enhance their project management skills at three seminars in Georgia. Over the course of one year, they become familiar with new forms of collaboration while implementing their ideas.

> Shaping and changing their environment

Working together, participants carry out volunteer projects both in their home communities and in cross-border settings. Core funding is provided to support the projects.
