

## > Travel in Theodor-Heuss-Kolleg

### Planning your journey

**When booking please consider the following:**

- > Please always **choose the cheapest option** of travelling!
- > Book your ticket **as soon as you know about your journey** but latest one week after you know about it, prices are getting higher and higher.
- > If your journey would take less than 24 hours please **take the bus, train or car** and do not fly. It is **more environmental friendly** and is most of the time less expensive!
- > If you come earlier or stay longer your expenses (accommodation, food, etc.) are up to you!
- > Please **book the ticket on your own!** It saves money and time if the THK office does not have to do it for you. Furthermore, it may be that tickets are cheaper if they are not booked from Germany but from other countries.

Money is important but please always also **consider the environment** when you plan your journey!

*A return flight Baku-Berlin produces 1290 Kg Co<sub>2</sub>, Istanbul – Bucharest is 220 Kg Co<sub>2</sub>.  
While 1 year running a fridge is 100 Kg Co<sub>2</sub> and a climate friendly budget for person is  
2.300 Kg Co<sub>2</sub> per year. (info & compensation: [www.atmosfair.de/en](http://www.atmosfair.de/en))*

If you have any questions regarding your booking, feel free to ask!
